ABOUT US

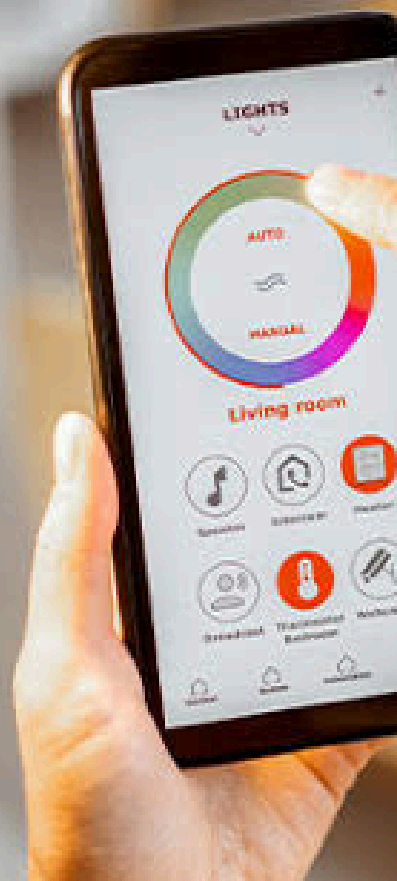

At ACL Smart Solutions, we envision a world where cutting-edge technology seamlessly integrates with everyday life, transforming offices and homes into intelligent, efficient, and connected spaces. Established with a passion for innovation, ACL Smart Solutions, is at the forefront of the smart automation revolution.

We are a dynamic team of experts specializing in smart automations for both commercial offices and residential spaces. Our journey began with a shared commitment to redefine how people interact with their environments. We believe in creating solutions that not only enhance convenience but also contribute to a sustainable and intelligent future.

SMART HOME AUTOMATION

Providing highly stable smart home systems specifically designed for high-end residences and commercial spaces

CCTV SURVEILLANCE

A Smart CCTV Camera tracks the happenings in your home and uses your Wi-Fi network to transmit the video to your smartphone or cloud storage for the archive. You connect it to a free app that you download on your mobile. This is where you can review the footage as well as change the settings

SMART ELECTRIC FENCING SMART SOLUTIONS

A completely portable, instant, all in one electric fence system. Combining posts, reels, and wire in one easily transportable package. A versatile fencing solution that is ideal for remote grazing areas and temporary fencing solutions such as temporary paddocks subdivision, orchard grazing, roadside grazing, tree/baleage protection, temporary fencing at horse, sheep or other livestock shows and many more.

INTRUDER ALARM SYSTEMS

Our systems are tamper-proof, work during power outages, and minimize false alarms. KNX alarm systems are smart, wireless, and instantly responsive. Security Technology. Industry Specialist

SMART GATES AUTOMATION

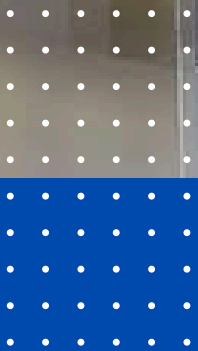

We specialize in providing high-quality gate and home automation solutions for residential, commercial, and industrial properties across Kenya. From automatic gates to smart home security, we ensure seamless automation for convenience, security, and efficiency

ACCESS CONTROL

A smart access control utilizes modern technology to manage and monitor entry points into buildings

BIOMETRIC ATTENDANCE

Manage access points effortlessly with our latest Access Control and Time Attendance systems. Choose from passcodes, fingerprints or card to define attendance.

POINT OF SALE

Simplify inventory & sales. Cloud-based POS for restaurants in Kenya. Run your restaurant smarter with Omega POS. Sales, stock & orders in one place

NETWORKING SOLUTIONS

We offer a wide range of consulting, design, and implementation services as well as products with partnership from industry leaders.

CABLING

Cabling refers to the physical infrastructure of wires and cables used to connect devices and transmit data or power. It encompasses various types of cables, including twisted pair, fiber optic, and coaxial, each suited for different applications and network architectures. Cabling is a critical aspect of any building or network infrastructure, ensuring reliable connectivity and efficient data transfer.

ELECTRICAL WIRING

Electrical Wiring is a process of connecting cables and wires to the related devices such as fuse, switches, sockets, lights, fans etc. to the main distribution board is a specific structure to the utility pole for continues power supply

SMART CURTAINS

Make your home classy with our smart curtains. Perfect for double volumes and high ceilings. Compatible with Alexa, Google, Tuya APP and wireless control

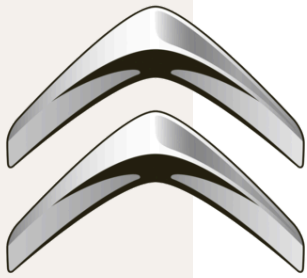

SMART LOCKS

Mobile access: Smart locks can connect to a mobile app, allowing you to lock and unlock your door from anywhere in the world with an internet connection, as well as keep track of how often household members or guests are coming and going. Mobile alerts: With a mobile app comes the ability to receive mobile alerts
